

Continuous professional development of mental health professionals, community interventions, mental health promotion programs, and prevention programs (with parents, teachers, and students being the recipients) is another important aim.

The co-organization with GACBP of a two day Workshop on 22nd and 23rd of May 2010 in Thessaloniki was the first of that kind of co-organized scientific events.

During this workshop, that was held at Capsis Hotel in Thessaloniki, Prof Arthur Freeman presented on **"Personality Styles and Disorders Across the Lifespan: A Cognitive-Developmental and Life Task Approach"**.
